MOBILIZATION OF CIVIL SOCIETY ORGANIZATIONS IN COVID-19-
RELATED RESPONSE AND RECOVERY PROGRAMS OF THE
GOVERNMENT

Memorandum Circular No. 2020-135
09 OCT 2020

1.0 BACKGROUND AND RATIONALE

1.1 On March 8, 2020, President Rodrigo Duterte, issued
Presidential Proclamation No. 922, “Declaring A State of
Public Health Emergency Throughout the Philippines.” This
was due to the Department of Health (DOH) confirmation of
the first case of local transmission of the Novel Coronavirus
Disease 2019 (COVID-19) in the country. Four days later, the
President raised the national code alert for COVID-19 to Code
Red Sublevel 2\(^1\) following the recommendation of the DOH
and the Inter-Agency Task Force for the Management of
Emerging Infectious Diseases (IATF MEID). Subsequently,
Presidential Proclamation No. 929 was issued on March 16,
2020, “Declaring a State of Calamity throughout the
Philippines due to COVID-19.”

1.2 Due to the continuing rise of confirmed cases of COVID-19,
the entire country was declared under a state of emergency
with government imposing strict social distancing, health
safety and quarantine protocols, among other precautionary
measures, in order to support its efforts to contain and prevent
the spread of the disease. COVID-19 poses a serious threat
to the health, safety and security of Filipinos, as it directly
affects their means of livelihood, consequently disrupting the
country’s economic activities as a whole.

1.3 Hence, to protect Filipinos from the socioeconomic problems
brought about by COVID-19, Republic Act No. 11469 or the

\(^1\) This is the maximum level of the country’s alert system. It means that there is sustained community transmission of the disease which is beyond the
government’s capacity to address and contain.
“Bayanihan to Heal as One Act” was passed into law on March 24, 2020. Likewise, President Duterte ordered the creation of a National Task Force against COVID-19 with Regional and Local counterparts that will execute the policy guidelines emanating from the Inter-Agency Task Force for the Management of Emerging Infectious Diseases. The Task Force has adopted a “whole-of-government” and “whole-of-society” approach to mitigate the impact of COVID-19 involving all instrumentalities of the government and the mobilization of all relevant sectors of the society especially in the grassroots level.

1.4 Section 27, Article II, of the 1987 Constitution states that the participation of non-governmental, community-based and other sectoral organizations shall be encouraged by the State. Similarly, Section 34 of the Local Government Code of 1991 encourages local government units to promote the establishment and operation of people’s and nongovernmental organizations to become active partners in the pursuit of local autonomy.

1.5 To intensify and supplement government efforts, there is a need to enhance and strengthen the structures that are already in place in the communities. The involvement of civil society organizations (CSOs) is critical to strengthen national and local coordination of government response to COVID-19. CSO participation and involvement in the implementation of various government projects at the local level have been proven to aid in increasing the responsiveness and efficiency of local governments in delivering services.
